TECHNICAL SKILLS

Languages: Core Java, Python

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving

Web Development: HTML5, CSS3

Databases: Basic SQL

Tools & Platforms: Git, GitHub, MySQL, Tomcat Server

PROJECTS

Luxe Bites — Full-Stack Food Ordering Web Application

Web Application — Java, JSP, Servlets, MySQL, JDBC, HTML, CSS — GitHub

- Built a full-stack food ordering platform with **user authentication**, restaurant browsing, and a real-time **cart and checkout system**.
- Implemented **OTP-based password recovery** via email, order tracking, and user profile management using the **DAO design pattern** with MVC architecture.

Endee Vision — Large-Scale Image Similarity Search

Project — Python, Deep Learning, Vector Embeddings, ANN — GitHub

- Built a **large-scale image similarity search** system using vector embeddings.
- Optimized retrieval using **ANN search** for fast and scalable querying.

A Forensic Framework for Estimating Logical Editing Layers in Deepfake Images

Deep Learning Project — Python, CNN, Computer Vision, OpenCV — GitHub

- Developing a **forensic deep learning framework** to estimate logical editing layers in deepfake images.
- Leveraging **CNN-based architectures** and image forensics techniques to analyze manipulation traces.

EXPERIENCE

TAP Academy (Offline)

Java Full Stack Intern — Java, Spring Boot, JDBC, HTML, CSS

01/2026 – 06/2026

- Undergone training in **Java Full Stack Development** including backend and frontend technologies.
- Building hands-on projects and learning **REST APIs, database integration, and application architecture**.

Besant Technologies (Virtual)

Python Programming Intern — Python, OOPS, Problem Solving

09/2025 – 10/2025

- Successfully completed a **one-month virtual internship** in Python programming.
- Gained hands-on experience with **core Python concepts** and object-oriented design principles.

ACHIEVEMENTS

Developed multiple **real-world projects** showcasing practical software development skills.

Demonstrated continuous learning through consistent coding practice by completing 80+ LeetCode problems.

HackerRank Achievements: Earned **3-star (Silver) in Java** and **4-star (Silver) in Python**.

EDUCATION

B.E. in Computer Science and Engineering

2022 – 2026

JCT College of Engineering and Technology, Coimbatore

Higher Secondary Education – Computer Science

2020 – 2022

Sacred Heart MHSS, Kanyakumari
